Ivansson Maria			Compression coupling FPL-PX (dim 12 - 32) /ED2300			

1. General

Type of product ☒ Coupling ☐ Valve ☐ Other
Is the product type approved? ☒ Yes ☐ No
If yes, type approval No SITAC No. 4623/86

Manufacturer and country Tour & Andersson AB, Sweden

2. Material Composition

All components of the product in percentage by weight and specification of the content of the different components. Where appropriate, the content of the components with CAS-No. is stated. Stated even if not containing material(s) listed on the restriction list, note-list and/or the publication ”Allergy and chemical Products” published by the National Chemicals Inspectorate.

Nipple, Distributor and Support Bush

Components of the product	w.p. ca.	Specification of the composition of the components (material of surface conditioning, kind of plastic etc.)	Not containing material(s) in		
			Restr. list	Note-list	Allergy. ..
Brass	100	Cu 65%, Pb 2%, Si 0,7%, Zn 32% *	☐	☐	☐
Other		* SITAC No 4482/86 and 4378/86	☐	☐	☐

Nut and Cone

Components of the product	w.p. ca.	Specification of the composition of the components (material of surface conditioning, kind of plastic etc.)	Not containing material(s) in		
			Restr. list	Note-list	Allergy. ..
Brass		Cu 58%, Pb 3%, Zn 39% (CuZn39Pb3)	☐	☐	☐

Is the product chromium-plated? ☒ Yes Up to Dy 16
Is the product nickel-plated? ☒ Yes <Dy 16 or yellow as per catalogue leaflet or chrome plated made to order.
Is the product galvanized? ☐ Yes ☒ No

Is recycled material a part of the product? ☒ Yes ☐ No
If yes, state which material(s) Chips from our own machining

3. Eco-labelling and emissions

Is the product eco-labelled? ☐ Yes ☒ No
If yes, state label and licence No.

4. Waste/worn out product

Is waste/the worn out product rated as hazardous waste? ☐ Yes ☒ No
If yes, state cause:
How should the worn out product be taken care of? Be grinded, melted down and reused.
Is the supplier willing to call in the worn out product? ☐ Yes ☒ No
If yes, how is called-in waste/the worn out product taken care of?

5. Transport and packing

Which kind(s) of transport is used? Bil eller postpaket.
In which material(s) is the product packed? Boxes of cardboard or corrugated board and where appropriate, in addition, in a plastic bag of polyethylene (PE).

Is recycled material a part of the packing? ☒ Yes ☐ No
If yes, state which material(s) and extent Recycled packing/ -paper according to the manufacurer´s normal routine for packing.

How should the packing be taken care of? According to the normal routine for packing.
TA is listed on the REPA register.
Registration No 55603362-5601
The recycling system of the packing complies with the REPA agreement.

6. TA's environmental work

Please see TA's Safe, Health and Environmental Policy published at the portal.
