

SIMPLY VENTO

Compact cyclonic vacuum degassing for heating systems up to 2,5 bar and 10 m³

VENTO CONNECT

Cyclonic vacuum degassing system with water make-up control for heating, solar and chilled water systems from 0,5 bar up to 20,5 bar and 300 m³

ZEPARO G-FORCE ZG

Flanged version for dirt and magnetite separation with cyclonic technology PN 16, PN 25 DN 65 - DN 300

ZEPARO G-FORCE ZG-W

Welded version for dirt and magnetite separation with cyclonic technology PN 16, DN 65 - DN 300

ZEPARO ZIO

Flanged version for microbubble, dirt and magnetite separation PN 10 DN 50 - DN 300

ZEPARO ZUT

Air Vent DN 15 - DN 25

ZEPARO ZUTS

Air Vent DN 15 for solar systems

ZEPARO ZUTX

Air Vent DN 25 eXtra-lockable

ZEPARO ZUP

Air Vent Purge version DN 10

ZEPARO CYCLONE ZCD

High efficiency dirt separator with cyclonic separation technology DN 20 - DN 50

ZEPARO CYCLONE ZCDM

High efficiency dirt separator with cyclonic separation technology, magnets and heat insulation DN 20 - DN 50

ZEPARO ZUCM

Collect version with separator for micro bubbles and sludge particles DN 20 - DN 40

ZEPARO ZUV

Microbubble Separator DN 20 - DN 40

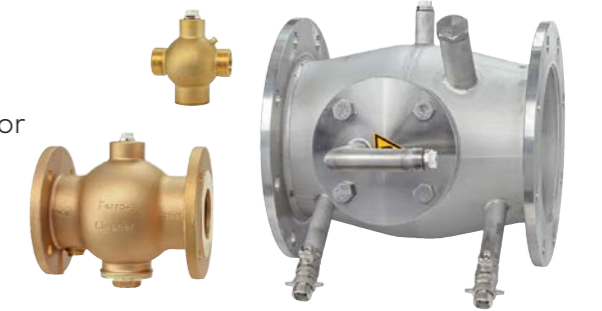

ZEPARO ZUKM

Kombi version for dirt and microbubble separation with magnet DN 20 - DN 40

ZEPARO ZUM

Dirt Separator with magnetic action DN 20 - DN 40

FERRO-CLEANER

Extra strong magnetite separator DN 32 - DN 500, PN10, PN 16

Vento Range

STATICO SD

Pressure expansion vessels with fixed gas charge 8 - 80 L 3 bar, 10 bar

STATICO SU

Pressure expansion vessels with fixed gas charge 140 - 800 L 3 bar, 6 bar, 10 bar

STATICO SG

Pressure expansion vessels with fixed gas charge 1000 - 5000 L 6 bar, 10 bar

Statico Range

SIMPLY COMPRESSO

Pressure Maintenance system with pre-assembled compressor 80 L with supplementary vessel up to 160L, 6 bar

SQUEEZE

Pressure expansion vessels with SBR membrane and fixed gas charge 140 - 800 L 6 bar

Squeeze Range

COMPRESSO C 10.1F CONNECT

Pressure maintenance system with compressor TecBox with one compressor for on top fixation with CU vessels (200-800 L)

CU, CG, CUE, CGE

Primary and extension vessels (200 - 5000 L) for Compresso Connect TecBoxes

COMPRESSO CX CONNECT

Pressure maintenance system with compressors, Floor standing TecBoxes with one or two compressors for CU and CG vessels (200-5000 L)

COMPRESSO CX CONNECT

Pressure maintenance systems with external compressed air supply For heating systems up to 4 MW and cooling systems up to 6 MW (200-5000 L)

Compresso Range

Zeparo Range

DSV H, DGH, SOL, F

Safety valves from 2 to 25 bar setting range, TÜV approved

Safety Valve Range

Ferro-Cleaner Range

TU, TUE, TG, TGE, TGI

Primary and extension vessels (200 - 5000 L) for Transfero

TRANSFERO TI CONNECT

Pressure maintenance system with pumps for industrial applications. TecBoxes for pressurisation and water make-up control with TGI vessels (1000 - 5000 L)

TRANSFERO TV CONNECT

Pressure maintenance system with pumps. TecBoxes for pressurisation, cyclonic vacuum degassing and water make-up with TU and TG vessels (200 - 5000 L)

TRANSFERO TVI CONNECT

Pressure maintenance system with pumps for higher pressures. TecBoxes for pressurisation, cyclonic vacuum degassing and water make-up with TU and TG vessels (200 - 5000 L)

Pleno Range

PLENO CONNECT

Pressure control and water make-up system

Transfero Range

AQUAPRESSO AU, AUF

Pressure expansion vessels with full flowthrough (AUF) for potable water heating systems and pressure-boosting systems 140 - 600 L, 10 bar

AQUAPRESSO AG, AGF

Pressure expansion vessels with full flowthrough (AUF) for potable water heating systems and pressure-boosting systems 300 - 3000 L, 16 bar

Aquapresso Range
